

Student Centric Learning Survey - Teachers

Name:

Please complete this form and return it to ? via email by the end of staff communication today.

Throughout this semester we would like to collect teacher reflections in three areas of our student centric learning environment. Your feedback is essential to understanding the success and challenges of these changes. The data collected will inform our professional practice as we continue to transform our CHS school culture.

1. Student Accountability

- Comment on the student accountability process under the following headings:

Attendance on PowerSchool

Sign in duotang

Google Form

- Comment on the student use of flex time.
- Comment on the teacher use of flex time.
- What suggestions do you have to improve the student accountability process?
- What are the consequences you give students who are not completing flex forms, attending or coming in late?

2. Relationship

- What does your relationship look like with your flex students? What steps could you take to enhance your relationship with your flex students?
- How is the flex block working for students now?
- What could be improved on during flex block over the next month that would enhance student success?
- In your observation how well are students managing their stress during the day?

3. Student Achievement

- What effect do you anticipate flex block will have on student achievement?

- **(For Grade 9 teachers only)** What benefits do you anticipate Grade 9 students will gain from year long programming?
- **(For Grade 9 teachers only)** How are you addressing concerns of seeing Grade 9 students every second day?

4. **Staff Experience**

- What have you observed to be the biggest barrier to flex so far?
- What have you observed to be the most positive experience of flex so far?
